Professional Summary

Over 3 years of hands-on experience in backend development, primarily using Node.js, Express.js, and AdonisJS 3 to build robust and scalable web applications. Experienced in both traditional and serverless architecture using Serverless Framework on AWS Lambda. Proficient with MongoDB (Mongoose, Prisma), MySQL, and SQL databases. Skilled in deploying applications on AWS EC2 and managing storage through S3 Buckets. Comfortable with version control tools like GitHub and Bitbucket, and managing dependencies via NPM. Basic working knowledge of React.js for frontend integration.

Technical Skills

- Languages:** C, C++, JavaScript, Node.js
- Databases:** MongoDB, MySQL, SQL
- Frameworks & Tools:** Express.js, AdonisJS 3, Prisma, Mongoose, AWS (EC2, S3, Lambda), Serverless Framework
- Version Control:** GitHub, Bitbucket
- Others:** RESTful APIs, Middleware, React.js (Basic)

Work Experience

- Developed backend APIs using Node.js and Express.js.
- Created custom middleware for authentication and error handling
- Worked with MongoDB and SQL databases.
- Implemented serverless functions using Serverless Framework and AWS Lambda.
- Collaborated with frontend team for API integration.
- Translated wireframes into high-performance backend logic.
- Contributed to deploying and maintaining projects on AWS.

Professional Experience

- NetDroid Technology – Katargam, Surat, India.
Duration: July 2022 – March 2025
- CodeSmith InfoSoft – Katargam, Surat, India.
Duration: May 2025 – Present

Education

Higher Secondary Certificate (HSC)

2019

Yogi-Pravruti School (Akshar Jyoti High School)

Bachelor of Commerce (B.Com)

2020

Navyug Commerce College
